

**GOOD MORNING !**

**The Complete ICD & CPT Essentials  
For Maximum Reimbursement  
2023-2024**

"it is critical to stay abreast of changes in CPT and ICD10 and payer billing guidelines related to coding... maintaining current knowledge is imperative for the long-term survival and safety of a practice."

Our Commitment and Mission - To strengthen and grow the Chiropractic profession by providing education, tools, and support that continually improve the productivity, profitability, and well-being of the alternative health community as a whole.

We are very glad that you have joined us today, and we promise to make giving up your day, a worthwhile experience. This seminar has an emphasis on coding, documentation, and compliance with 2024 updates. Our goal is you will be energized to return to the office and implement new protocols to ensure proper reimbursement!

## 2024 Department of Health and Human Services Compliance Program

Documentation, Coding, Billing, Medical Necessity, HIPAA-Privacy

Each practice can undertake reasonable steps to implement compliance measures, depending on the size and resources of that practice. Practices can rely, at least in part, upon standard protocols and current practice procedures to develop an appropriate compliance program for that practice. Many practices already have established the framework of a compliance program without referring to it as such.

The incorporation of compliance measures into a physician's practice should not be at the expense of patient care but instead should augment the ability of the physician's practice to provide quality patient care.

**7 Components of an Effective Compliance Program** This compliance program guidance for individual and small-group practices

1. Conducting internal monitoring and auditing.
2. Implementing compliance and practice standards.
3. Designating a compliance officer or contact.
4. Conducting appropriate training and education.
5. Responding appropriately to detected offenses and developing corrective action.
6. Developing open lines of communication.
7. Enforcing disciplinary standards through well-publicized guidelines.

*A well-designed compliance program can:*

- Speed and optimize proper payment of claims;
- Minimize billing mistakes;
- Reduce the chances that an audit will be conducted by HCFA or the OIG; and
- Avoid conflicts with the self-referral and anti-kickback statutes. (fee-splitting)

A self-audit is an audit, examination, review, or other inspection performed by and within a physician's or other healthcare professional's business. Self-audits generally focus on assessing, correcting, and maintaining controls to promote compliance with applicable laws, rules, and regulations. The U.S. Department of Health and Human Services, Office of Inspector General (HHS-OIG), includes periodic internal monitoring and auditing in its list of the seven elements of an effective compliance program.[1]

# TOP ENFORCEMENT VIOLATIONS

Here are examples of frequent violations that may result in disciplinary actions. Please refer to The Board of Chiropractic Examiners Rules and Regulations link ([www.chiro.ca.gov/laws\\_regs/regulations.pdf](http://www.chiro.ca.gov/laws_regs/regulations.pdf)) and Initiative Act link ([www.chiro.ca.gov/laws\\_regs/initiative\\_act.shtml](http://www.chiro.ca.gov/laws_regs/initiative_act.shtml)) for comprehensive coverage of all possible grounds of discipline.

## INSURANCE FRAUD:

- Double billing
- Billing for service not rendered
- Up coding
- Excessive treatment

## UNLICENSED PRACTICE:

- Practicing after license expired
- Failing to promptly renew
- Aiding and abetting unlicensed individuals

## SEXUAL MISCONDUCT:

- Erotic behavior
- Inappropriate touching
- Sexual contact or having sexual relations with a patient, client, customer, or employee

## EXCESSIVE TREATMENT:

- Treatment beyond what is reasonable/necessary or within the standard of care
- Failure to document necessity (conduct a thorough exam, diagnose the condition, implement a treatment plan, and conduct follow-up exams to assess progress)

## VIOLATION(S) INVOLVING DRUGS/ALCOHOL:

- DUI
- Possession or use of any illicit drugs
- Practicing while impaired
- Prescription medication abuse

## CONVICTION OF A CRIME(S):

- Theft
- Domestic violence
- DUI
- Vandalism

## FALSE AND/OR MISLEADING ADVERTISING:

- Sensational claims
- No "D.C." after chiropractor's name
- Fraud/misrepresentation

## BEYOND SCOPE OF PRACTICE:

- Performing surgical procedures
- Furnishing/prescribing controlled substances
- Claiming to treat/cure cancer

## NEGLIGENCE/INCOMPETENCE:

- Physical harm to patient
- Failure to exercise appropriate standard of care

## FAILURE TO RELEASE PATIENT RECORDS WITHIN 15 DAYS OF REQUEST:

- Includes requests from patient, patient attorney, patient representative, insurance company, or BCE representatives

## PAYMENT FOR REFERRALS:

- Discounts
- Cash/gift cards
- Free services

- **High-level E&M codes done routinely 99204, 99205**
- **Billing E&M daily**
- **Routine billing of 4 or more services per visit**
- **Care that appears preventative or supportive**
- **Extended care for non-complicated conditions**
- **Patient/Employee making complaints to the insurer**

### **The Gold Standard**

- A chiropractor should maintain accurate and complete medical records and documentation of the services they provide.
- A chiropractor also should ensure that the claims they submit for payment are supported by the documentation.
- Good documentation practice helps ensure that your patients receive appropriate care from you and other providers who may rely on your records for patients past medical histories.

The chart notes reflect and can identify the services were performed by what was documented

- E&M services match the level billed based on medical decision making or time
- CMT reflects the diagnosis and regions manipulated
- Therapies identify the service provided by what, where, and time with indication of the purpose or outcome

---

---

---

---

---

---

---

---

### **The Gold Standard**

- Another provider can read the notes and clearly identify the service and could perform the service based on what was documented.

## INSURANCE COMPANY REQUESTING REFUND ON OVERPAYMENT

Note this does not apply to Medicare, Workers' Compensation, Self-Insured Plans, and Managed Care

Date

Blue Shaft Insurance Co.

Re: Sally Adams  
Claim # 44-8980  
Dates of Service: (dates)

Dear Sirs:

On (date), we received a letter from your company requesting that we refund the amount of \$276.00 to Blue Shaft for a payment that was made in error (*beyond policy limits*) back in (date).

First of all, I reviewed Ms. Adams's records and I do not show that we have an overpayment resulting in a credit on her account.

Secondly, I do not feel that you have the right to place this burden upon my office by asking us to correct your error, chase down this past patient, and ask her to make an additional payment to our office for a new balance that simply appeared out of nowhere!

I would like to bring to your attention the cases of: *In Federated Mutual Insurance Company vs. Good Samaritan Hospital, (Neb.1974) 214 N.W.2d 493*, where the court held that the insurance company could not recover the mistaken overpayment and determined that "the insurance company is in the best position to know what the policy limits are and must bear the responsibility for their own mistake." As well as, *The City of Hope National Center vs. Western Life Insurance Company, 2 Daily Journal D.A.R. 10728, Decided July 31, 1992*, where the court held that, in the absence of fraud, a health care provider is not legally obligated to refund payments it receives from an insurer if the insurer subsequently determines that they were paid in error.

Based on these and other court decisions, I will not be sending your company a refund for \$276.00 for the erroneous reimbursement payment you are claiming as due.

Sincerely,  
John C. Smith, DC

## Electronic Health Records

- “Services are considered not documented when cloned documentation is identified. Services are denied due to lack of documentation and failure to meet the documentation requirements of BCBS Medical Policy CAM 065.”

- Avoidance of abbreviations (use only standard abbreviations well known to your peers)

---

---

---

---

---

---

---

- ✓ **Cloned Chart Notes:** In accordance with the Quality Standards for Inspection and Evaluation issued by the Council of the Inspectors General on Integrity and Efficiency, cloned chart notes can result in poor data quality or fraud.
  - **Copy-Pasting:** Copy-pasting, also known as cloning, enables users to select information from one source and replicate it in another location. When doctors, nurses, or other clinicians’ copy-paste information but fail to update it or ensure accuracy, inaccurate information may enter the patient’s medical record and inappropriate charges may be billed to patients and third-party health care payers.

---

---

---

---

---

---

---

- Templates can be useful tools; however, providers should use caution when using templated language. Blue Cross and Blue Shield discourages templates that provide limited options and/or space for the collection of information, such as checkboxes, predefined answers, choices to be circled etc.
- Templates that just elicit selected information for reimbursement purposes are often not sufficient to demonstrate that coverage and coding requirements have been met.

## What Is Insurance?

- Health Insurance?
- Sick Insurance
- Not preventative in design
- It aids in paying for services does not pay in full, in most instances

## Why Insurance? Is it worth it?

### Cash Practice

1. Cash
2. Prompt Pay
3. Prepay

### Insurance Practice

1. Standard
2. PPO
3. HMO (EPO)
4. HSA or FSA
5. Automobile (Personal Injury)
6. Workers' Compensation
7. Veterans Administration
8. Medicaid (Medi-Cal)
9. Medicare

## Insurance

- Insurance aids in payment and rarely covers 100%
- New patients
- Someone may be more apt to try Chiropractic
- You are not required to bill insurance and may simply provide a receipt or "superbill" for patient to submit to insurance if they have it

## Variance of Insurance Reimbursement

- There are plans that may pay in excess of several hundred dollars per visit for chiropractic related services
- Other plans may pay as little as \$25-\$60 maximum per day
- There are plans simply have no benefits, however most plans do have some benefits for chiropractic

## PPO Discounts

- In network
- Out of Network

### Barriers to Care

- **291.190** Patient's noncompliance with other medical treatment and regimen due to financial hardship

Data suggest that Americans are **increasingly willing to pay out-of-pocket** for acupuncture, chiropractic, or massage care that isn't covered by health insurance, reports a new study led by the National Center for Complementary and Integrative Health.

American Physical Therapy Association

- **Higher copayments decreased the likelihood of a patient seeing a physical therapist as first provider.** Patients with a copayment over \$30 were 29% less likely to see a physical therapist first than were patients with no copayment. **This association was not evident for chiropractic.**

### Cash and Prompt Pay Discounts

- Waiving
- Hardships

---

## Cash and Prompt Pay

**Waiving co-payment, co-insurance and deductible.** If a physician's office routinely fails to collect the patient's portion of the care, it is considered a violation of both the Anti-Kickback Statute (AKS) AND the False Claims Act. OIG and the Department of Justice recognize that there are cases of financial hardship and make allowances for those unable to pay. They also recognize when a physician makes a reasonable effort to collect from a patient, but does not receive payment. It is the *routine waiver* of the patient responsibility that can cause serious consequences.

A reasonable "discount" for payment at the time of service, or so called "bookkeeping" discount can be within legal bounds. What's key, however, is how the provider sets discount policies.

Helping patients afford care is the compassionate and right thing to do. But offering a cash rate that is substantially lower than the insurance rate is and may be considered fraud.

What is reasonable? **OIG Advisory Opinion No. 08-03 provides protocol for such discounts.**

Following the broad guidance of the OIG, in a recent opinion, they O.K.'d a 5%-15% "Prompt Payment" discount for a particular hospital

Think defensible, what is the actual bookkeeping savings for not doing the administrative and clerical work associated with billing insurance not to mention the waiting period for payment and you are on the right track.

Charging 5-15% more for identical services where the additional burden of billing and collection is eliminated is certainly reasonable. However charging significantly more than the rate charged for a pay in full at the time of service patient would not be considered fair or reasonable. Certainly there is a cost to the added work but not double the cost of the actual chiropractic service.

## Washington Administrative Code

- WAC 246-808-545
- **Improper billing practices.**
  - The following acts shall constitute grounds for which disciplinary action may be taken:
    - (1) Rebating or offering to rebate to an insured any payment to the licensee by the third-party payor of the insured for services or treatments rendered under the insured's policy.
    - (2) Submitting to any third-party payor a claim for a service or treatment at a greater or an inflated fee or charge than the usual fee the licensee charges for that service or treatment when rendered without third-party reimbursement.

### 72A.20 METHODS, ACTS, AND PRACTICES WHICH ARE DEFINED AS UNFAIR OR DECEPTIVE

Subd. 39 Discounted payments by health care providers; effect on use of usual and customary payments.

An insurer, including, but not limited to, a health plan company as defined in section 62C.01, subdivision 4, a reparation obligor as defined in section 65B.43, subdivision 9, and a workers' compensation insurer shall not consider in determining a health care provider's usual and customary payment, standard payment, or allowable payment used as a basis for determining the provider's payment by the insurer, the following discounted payment situations:

- (1) care provided to relatives of the provider;
- (2) care for which a discount or free care is given in hardship situations; and
- (3) care for which a discount is given in exchange for cash payment

**Business and Professions Code 657.**

(a) The Legislature finds and declares all of the following:

(1) Californians spend more than one hundred billion dollars (\$100,000,000,000) annually on health care.

(2) In 1994, an estimated 6.6 million of California's 32 million residents did not have any health insurance and were ineligible for Medi-Cal.

(3) Many of California's uninsured cannot afford basic, preventative health care resulting in these residents relying on emergency rooms for urgent health care, thus driving up health care costs.

(4) Health care should be affordable and accessible to all Californians.

(5) The public interest dictates that uninsured Californians have access to basic, preventative health care at affordable prices.

(b) To encourage the prompt payment of health or medical care claims, health care providers are hereby expressly authorized to grant discounts in health or medical care claims when payment is made promptly within time limits prescribed by the health care providers or institutions rendering the service or treatment.

(c) Notwithstanding any provision in any health care service plan contract or insurance contract to the contrary, health care providers are hereby expressly authorized to grant discounts for health or medical care provided to any patient the health care provider has reasonable cause to believe is not eligible for, or is not entitled to, insurance reimbursement, coverage under the Medi-Cal program, or coverage by a health care service plan for the health or medical care provided. Any discounted fee granted pursuant to this section shall not be deemed to be the health care provider's usual, customary, or reasonable fee for any other purposes, including, but not limited to, any health care service plan contract or insurance contract.

(d) "Health care provider," as used in this section, means any person licensed or certified pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code, or licensed pursuant to the Osteopathic Initiative Act, or the Chiropractic Initiative Act, or licensed pursuant to Chapter 2.5 (commencing with Section 1440) of Division 2 of the Health and Safety Code; and any clinic, health dispensary, or health facility, licensed pursuant to Division 2 (commencing with Section 1200) of the Health and Safety Code.

## Texas SECTION 75.5. Prepaid Treatment Plans

---

(a) A licensee may accept prepayment for services planned but not yet delivered, but must provide the following:

(1) The plan must be cancellable by either party at any time for any reason without penalty of any kind to the patient.

(2) Upon cancellation of the plan the patient shall receive a complete refund of all fees paid on a pro rata basis of the number of treatments provided compared to total treatments contracted.

(3) The plan must provide for a limited, defined number of visits.

(4) The patient's file must contain the proposed treatment plan, including enumeration of all aspects of evaluation, management, and treatment planned to therapeutically benefit the patient relative to the condition determined to be present and necessitating treatment.

(A) The patient's financial file must contain documents outlining any necessary procedures for refunding unused payment amounts in the event that either the patient or the doctor discharge the other's services or therapeutic association.

(B) The treatment plan in such cases where prepayment is contracted must contain beginning and ending dates and a breakdown of the proposed treatment frequency.

(5) A contract for services and consent of treatment document must be maintained in the patient's file that specifies the condition for which the treatment plan is formulated.

(6) If nutritional products or other hard goods including braces, supports, or patient aids are to be used during the proposed treatment plan, the patient documents must state whether these items are included in the gross treatment costs or if they constitute a separate and distinct service or fee.

(b) This rule does not create any exemptions from any requirements applicable under the Texas Insurance Code.

### Georgia Rule 100-7-.08 Contractual Pre-Payments for Services

1. It is considered unprofessional conduct for any chiropractor to enter into a financial contract which obligates a patient for care or payment for care using coercion, duress, fraud, overreaching diagnosis, harassment, intimidation or undue influence

a) Any services provided prior to the signing of the contract must not be included in the contract.

b) The patient must be given a permanent copy of the signed contract; and the contract must provide a clearly defined refund policy typed in not less than 12-point font. An initial line must be next to the refund policy and must be initialed by the patient.

---

---

---

---

---

---

---

c) The contract must contain the statement "There is insufficient evidence to suggest that not receiving chiropractic care will lead to death, paralysis, disability or permanent harm." Said statement must be typed in not less than 12 point font

2. Any chiropractor who enters into a pre-payment financial contract with a patient must allow the patient 48 hours to sign and return the contract. During this 48-hour evaluation period from the time when a copy of the written contract is provided to the patient; no content of the contract can be changed.

3. Any chiropractor who enters into a pre-paid financial contract with a patient shall determine and record the patient's clinical objective which the pre-paid care is designed to achieve and provide the patient with a copy of this objective.

Every code has a relative value meaning a comparison from one to the other. For example, if a code is valued at 0.75 and another code is valued at 1.0 then the codes would be 25% different

For example, the RVU for 98940 is 0.81 and for 98941 is 1.16

Meaning the value or charge between them would be about 35%

If you know the fee of one code, you can then establish the fees for any other code based on that code with the other's relative value

For example, if you charge \$50 for 98940 and have established that is the fair and reasonable fee you can then do every other code based on that fee

$$\text{\$60.00} / 0.82 = 73.17 \text{ 98940}$$

$$73.17 \times 1.18 = \text{\$86.34 98941}$$

$$73.17 \times 3.33 = \text{\$243.65 99203}$$

$$73.17 \times 0.88 = \text{\$64.38 97110}$$

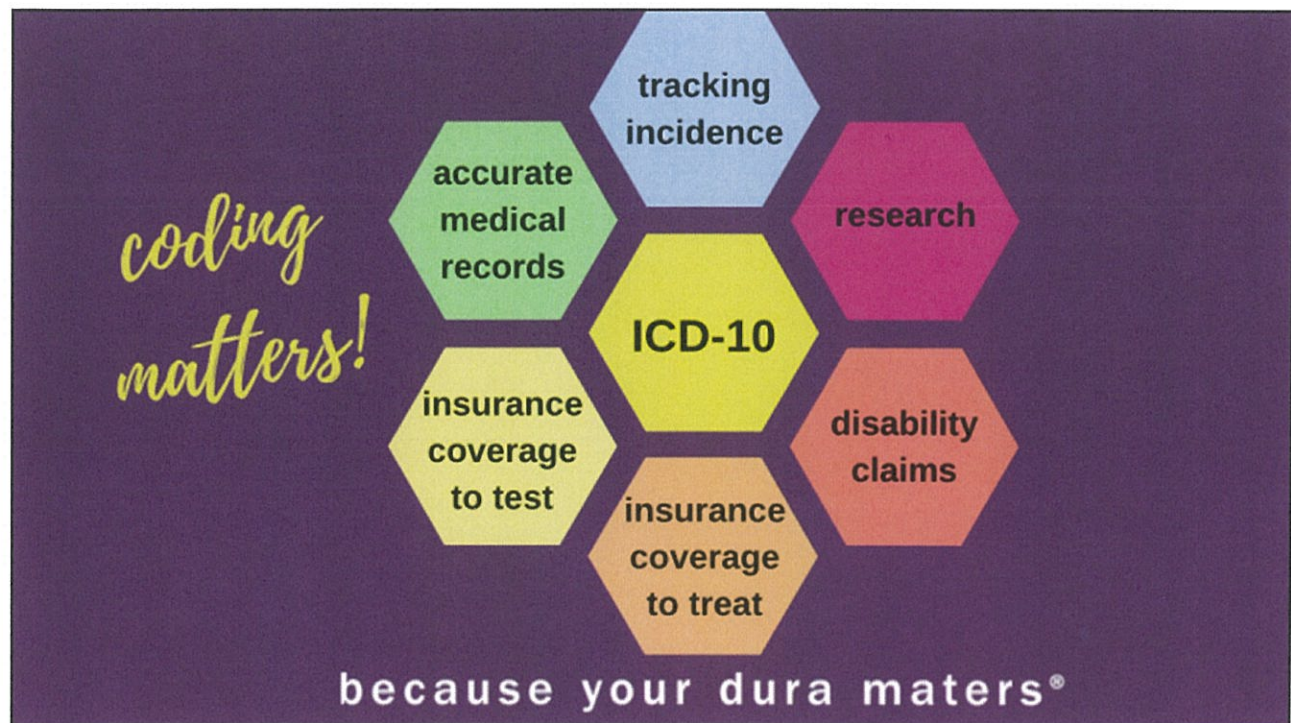

Take the value of the service and divide it by its RVU; that number becomes your conversion factor and multiply it by any other code RVU for the rate of that code based on the price of your primary service.

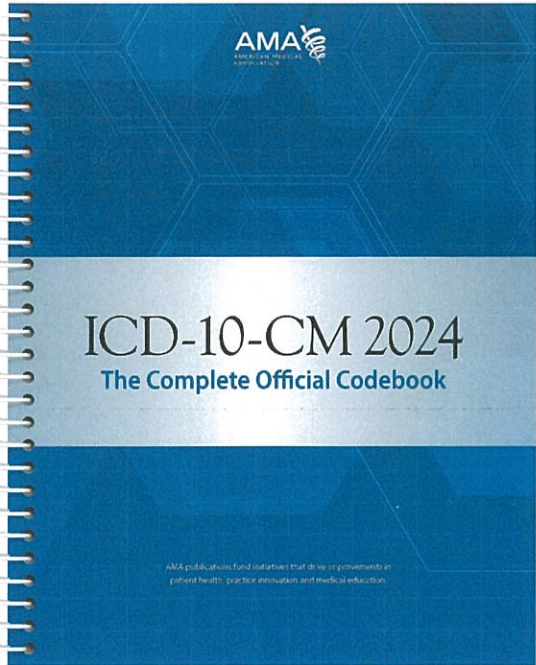

This is how plans determine fees (note ASH et al do not) including Medicare, WC, PI, non-PPO plans et al

You will often find codes way below what is reasonable based on what a plan allows.

Tell me what they allow for one code, and you can figure out what they allow by RVU

## Medicare Chiropractic Diagnosis 2023

The patient must have a significant health problem in the form of a neuromusculoskeletal condition necessitating treatment and the manipulative services rendered must have a direct therapeutic relationship to the patient's condition and provide reasonable expectation of recovery or improvement of function. The patient must have a subluxation of the spine as demonstrated by x-ray or physical exam.

**The following diagnoses are published by The following Medicare Administrative carriers but not publish lists currently but they will follow the same protocol of primary subluxation with a secondary neuromusculoskeletal diagnosis**
